DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-8, and 17, drawn to filter medium and method for manufacturing a filter medium.

Group II, claim(s) 12-13, drawn to method for manufacturing semiconductors.

Group III, claim(s) 9-11 and 14-16, drawn to a clean room.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I is directed to a filter medium having a special technical feature of a binder not shared by any of the remaining groups. Group II is directed to a method of manufacturing semiconductors having a special technical feature of a silicon wafer not shared by any of the remaining groups. Group III is directed to a clean room having the special technical feature of a clean bench, clean booth, wafer stocker, wafer transfer space, and semiconductor fabrication equipment not shared by any of the remaining groups.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

Art Unit: 1724

remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
